
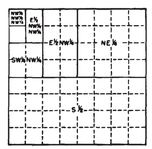
All blocks are based on the Unversal Transverse Mercator Grid System, Zone 17, with X origin = 1,640,416 67 feet (500,000 international meters), at 81° West Longitude, and Y origin = 0 feet at 0° Latitude Each regular block contains 5,760 acres The areas of the fractional blocks abutting the three league line have not been determined.

The identification of the blocks is based on numerical sequences of N (North) starting at Y = 0 and E (East) starting at X = 0 Example N 986-E 74



Subdivision of Blocks on the Outer Continental Shelf

Typical method of subdivision of the regular blocks, each subdivision being an aliquot part of the total, based on midpoint subdivision throughout.
